# Shading Mums

We list information concerning the varieties of MUMS for shading to bloom earlier than natural blooming time. It may be profitable for you to do this. It may also be worth your while to delay flowering period and lengthen your Mum-selling season. Refer to pages 30 and 31.

## CASCADE VARIETIES

These varieties are becoming popular. They are very showy. In the various exhibits at the recent National Chrysanthemum Convention at Indianapolis, they were greatly admired by everybody. Grow them for store window, show and other decorative occasions. See page 27.

## FOR MORE PROFIT

The following varieties of Pompons can be grown more profitably because they can be planted a little closer than the regular run of Pompons. It is not necessary to give them the usual space in the benches or beds. They can be planted as close as a variety like New York.

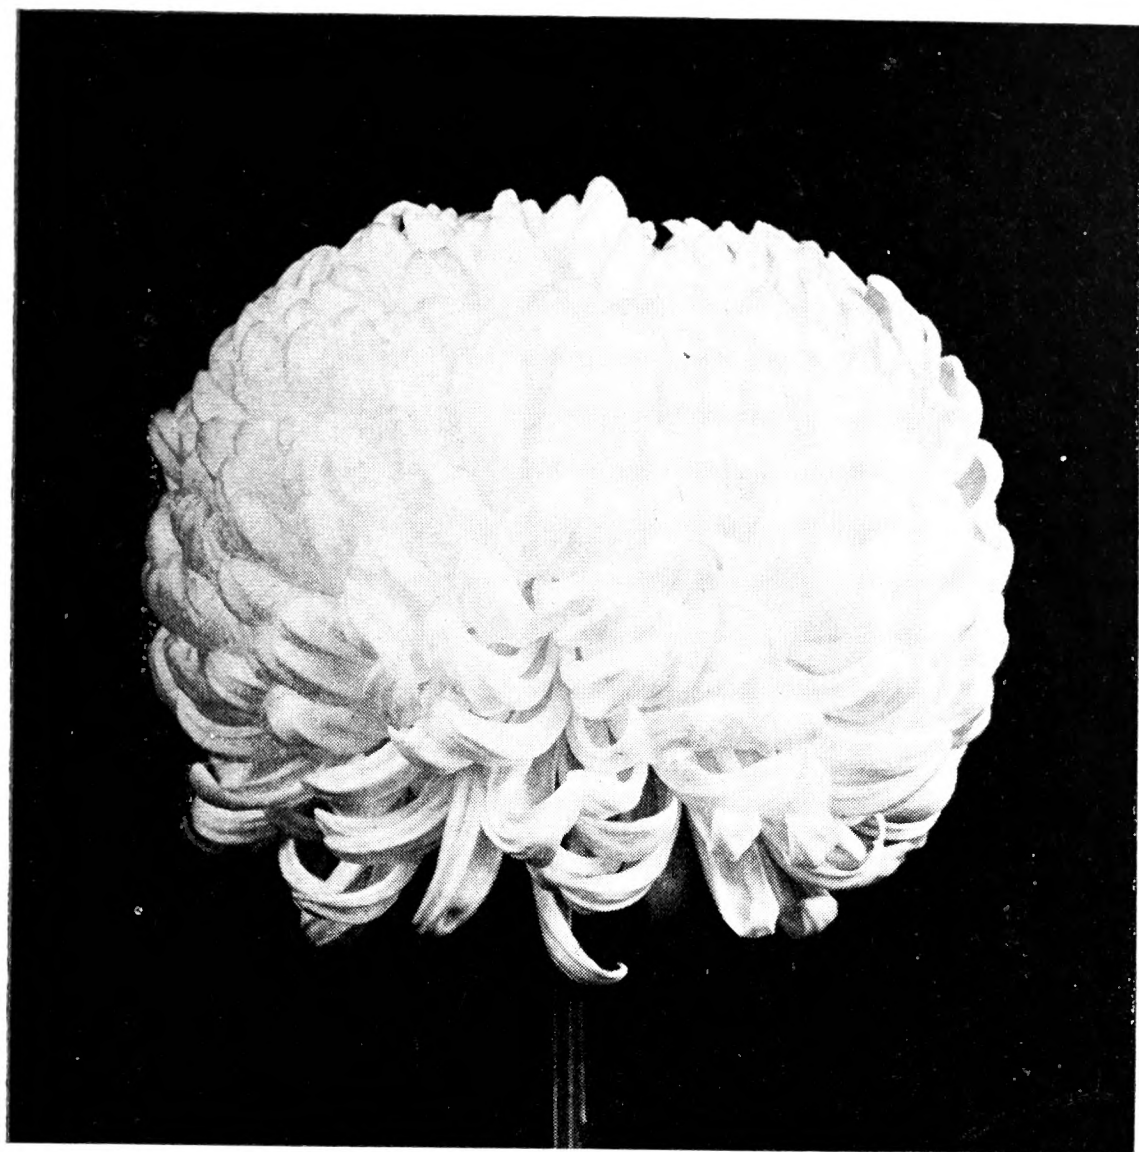

Absolute (Single)	Mrs. M. G. Bulkeley
Avalon	New York
Bobbie	November Bronze
Bonnie Maid	Peggy Poesch
Bristolite	Persian Rose
Buckingham, Bronze (Single)	Pink Lassie
Buckingham, W. H. (Single)	Pink Pearl
Campfire	Princeton
Carnelia (Single)	Radiant (Single)
Cavalcade	Red Princeton
Chicago Pearl	Rev. H. Bushnell
Clare	Robin Hood
Dainty Maid	Royal Crimson
Dorothy Turner	Royal Queen
Dream	Sunburst (Single)
Fairy Queen (Single)	Sunny Boy (Single)
Fez	Tagoya (Single)
Glow	Valencia (Single)
Golden Mensa (Single)	White Godfrey (Single)
Harmony	White Mensa (Single)
Jane (Single)	Wildfire
Kramer's Buff Orange (Single)	Yellow Dainty Maid
Mary Pickford	Yellow Godfrey (Single)
Mrs. A. Kramer (Single)	Yellow New York
Mrs. Mary Hooker	

## CALIFORNIA MUMS

There has been a request for some of the varieties that are grown for very early blooming in California and shipped East. We now offer five of these varieties. See page 9.

# CHRYSANTHEMUMS

## *New Varieties for 1940*

The following are the originators' descriptions

### LARGE FLOWERING

**ANTARCTIC** (Baur Steinkamp). A pure white, round-flowered variety of good commercial size and excellent substance. Blooms November 20th and later when the flux of the mid-season varieties have passed. Grows 5 ft. from late June planting which makes it valuable to the grower who cannot plant until after the bedding season is over. Take the terminal bud.

\$5.00 per doz., \$7.50 per 25, \$12.50 per 50,  
\$20.00 per 100, \$150.00 per 1000

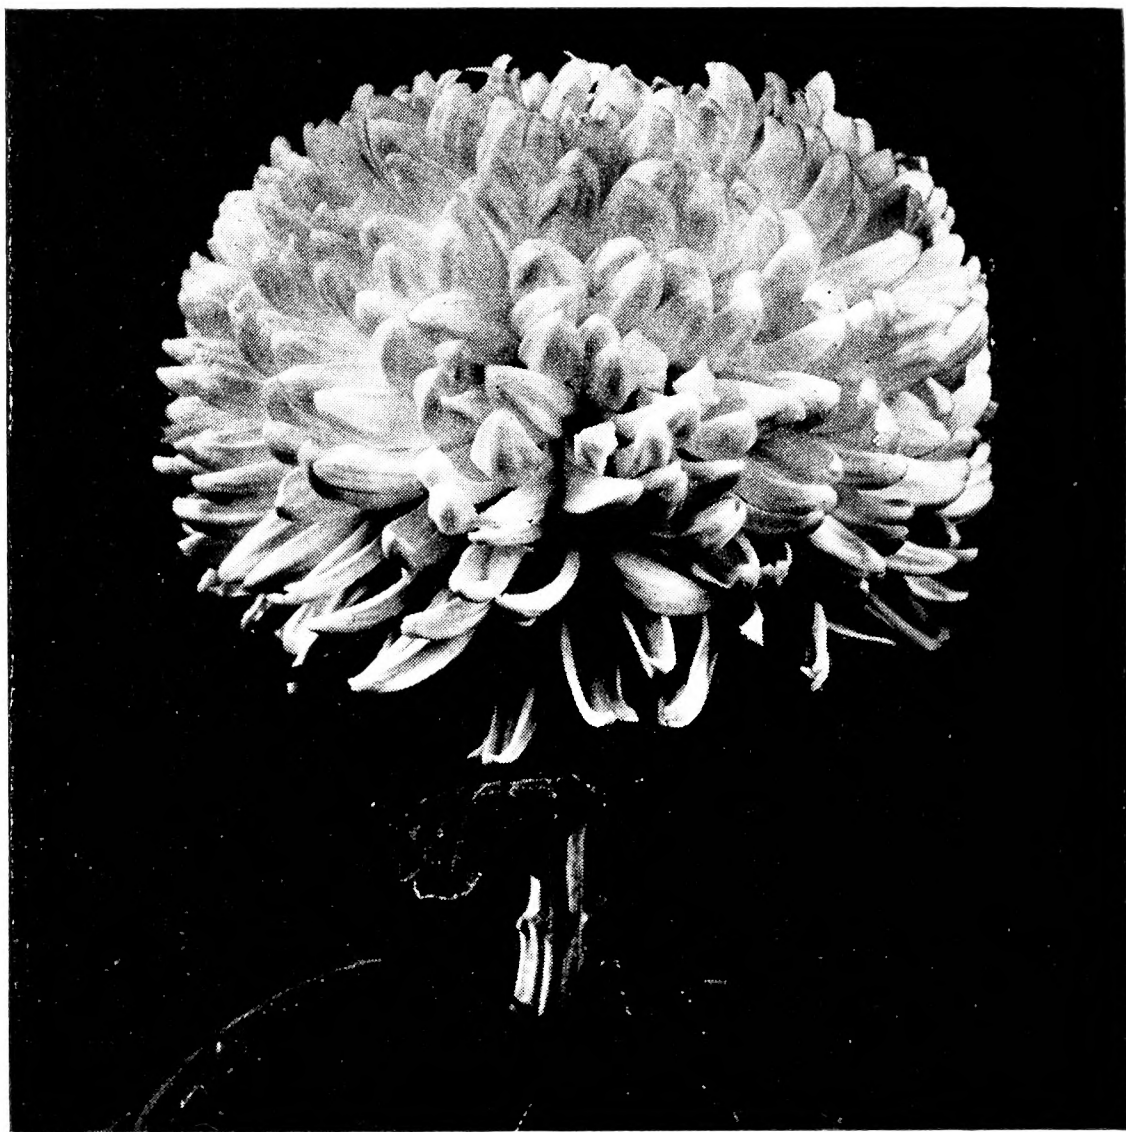

**GOLDEN HONEYDEW.** A sport of Honeydew. A beautiful yellow, large flowering incurved Mum. Normally comes into bloom November 1st at a time when the good early yellows are gone and before the later yellows are ready.

\$8.50 per 100, \$75.00 per 1000

We have not attempted to list all varieties. More recent introductions are listed wherever they are better than older kinds. You may, therefore, miss some of your old favorites. Consult us on your Mum problems. We will help you solve them as to selection of varieties, taking bud, varieties suitable for shading, etc.

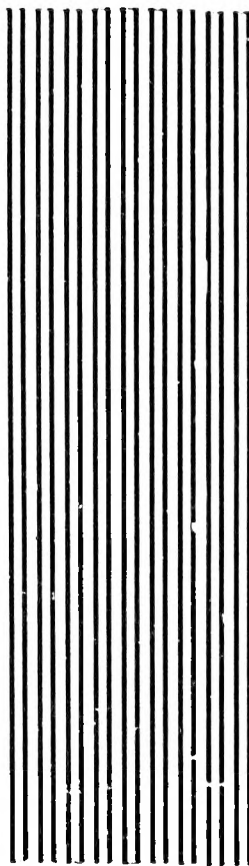

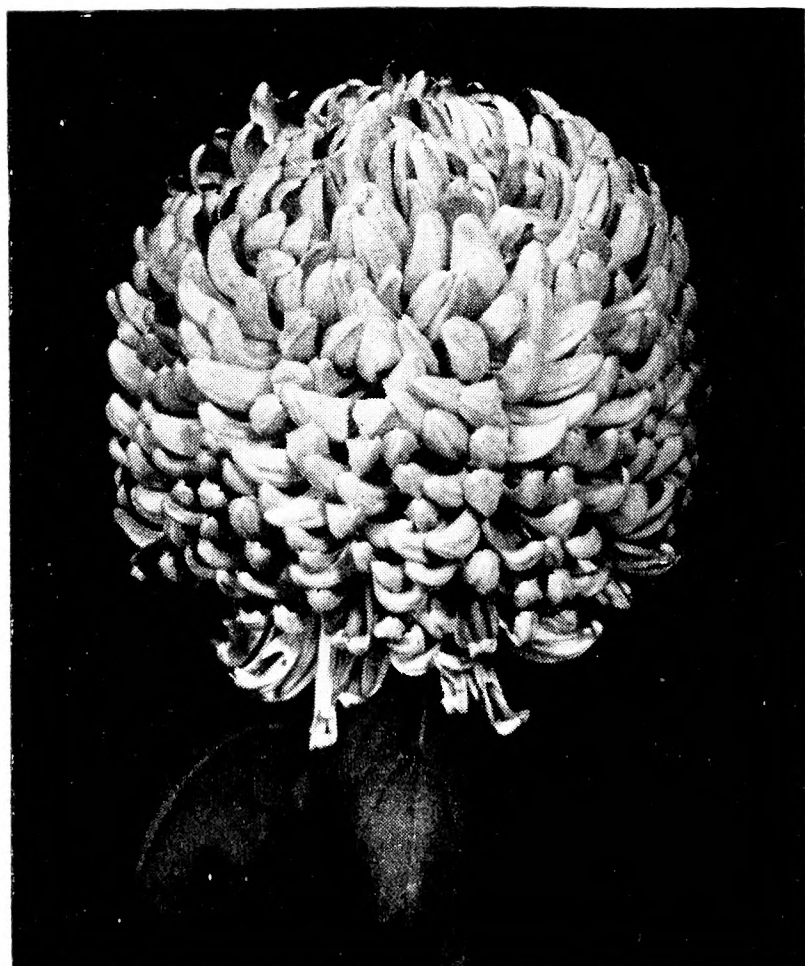

## NEW VARIETIES FOR 1940

**Comet**

**COMET** (Baur Steinkamp). This variety will make a place for itself during mid-October, when good Mums are always in demand. The color is an intense golden yellow. Grows to 4 ft. from June planting and needs only moderate support. Fine stems and foliage. Take terminal bud. Blooms October 15th. Also one of the best for shading.

\$5.00 per doz., \$7.50 per 25, \$12.50 per 50,  
\$20.00 per 100, \$150.00 per 1000

**Indianapolis  
Bronze**

Rosabella

**INDIANAPOLIS BRONZE** (Baur Steinkamp). Growers who bought Indianapolis Pink will welcome this bronze sport. The color is a fine shade of bronze which does not fade as the bloom develops. Its blooming date follows that of Detroit News which makes it possible to have that same grade of bronze into late November. It is also one of the very best for shading. Take terminal bud. Like its parent it grows to 5 ft. from June planting.

\$5.00 per doz., \$7.50 per 25, \$12.50 per 50,  
\$20.00 per 100, \$150.00 per 1000

**ROSABELLA** (Baur Steinkamp). A splendid variety to precede Orchid Queen, its blooming date being the last week in October and holding into early November. The color is a good shade of pink which holds unusually well. The growth is very rigid and the foliage is good. Grows to 5 ft. from June planting. Take terminal bud.

\$5.00 per doz., \$7.50 per 25, \$12.50 per 50,  
\$20.00 per 100, \$150.00 per 1000

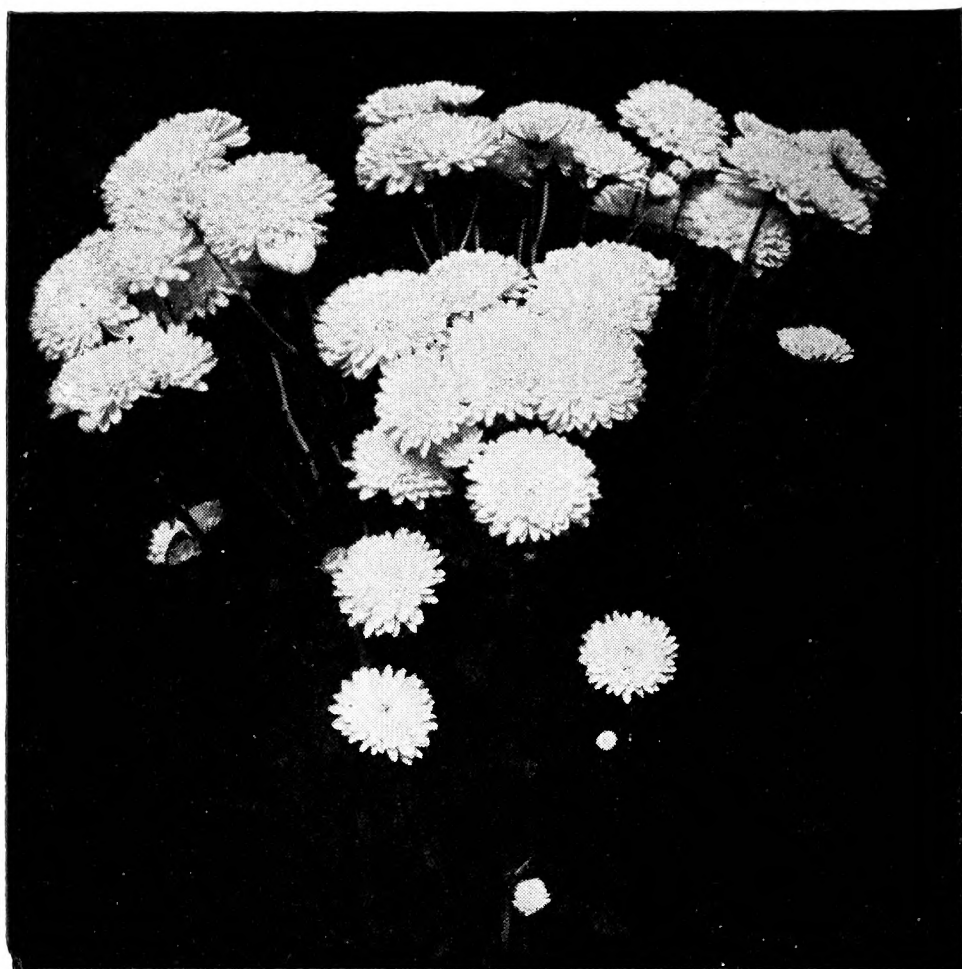

**YELLOW CHATTANOOGA IMPROVED.** A sport of Chattanooga that retains its vigorous growth and fine form. The color is several shades deeper than Yellow Chattanooga; certainly a valuable addition to the late blooming varieties.

\$2.50 per 10, \$15.00 per 100, \$125.00 per 1000

### EXPERIENCE PROVES

That it is more profitable to buy your MUM Stock than to propagate your own. Customers tell us how expensive it is to save Stock Plants through the Winter and keep them clean until Spring. Then too, they are usually busy with other things when the Cuttings have to be made.

There must be a reason why one customer will order 25,000, 50,000 and more instead of propagating their own.

Canary

### POMPONS, ANEMONES, ETC.

**BLAZE.** A red Single which blooms December 10-15 and can be held for Christmas. Color is a deep glowing cardinal red. Flowers are 2 inches in diameter on long, graceful petioles. This variety is a vigorous grower, tall, has attractive small dark green foliage; is free of blind growth; a good producer and easy to grow.

\$2.50 per 10, \$15.00 per 100, \$125.00 per 1000

**CANARY** (Baur Steinkamp). We recommend this variety for blooming in late November following the 20th and including Thanksgiving. In color it is a clear canary yellow. Grows to good height and gives a heavy yield. Blooms run 2 to 2½ in. and have fine substances.

\$5.00 per doz., \$7.50 per 25, \$12.50 per 50,  
\$20.00 per 100, \$150.00 per 1000

**CORA SCOVIL** (Dupuy G'heses). Burnt orange, Anemone type with low golden cushion; diameter of flower 4-5 in.; produces very fine blooms, strong stems; matures November 10th.

\$15.00 per 100, \$125.00 per 1000

**DARK PINK VALENCIA** (Thos. J. Sullivan). A deep pink sport from Valencia. It differs from that variety in color only. The color, however, is sufficiently intensified to make this a distinct new addition to the list of pink singles.

\$2.50 per 10, \$15.00 per 100, \$125.00 per 1000

**DARK YELLOW CORDOVA** (J. Dieckmann). Deeper than any sport of this variety. A very fine Pompon.

\$8.50 per 100, \$75.00 per 1000

**DECEMBER GOLD.** A large Pompon maturing December 5th and later. Excellent growing habit with good stem and foliage. Intense gold color which is quite brilliant and appealing. An excellent producer which should make it a favorite with both grower and retailers.

\$2.50 per 10, \$15.00 per 100, \$125.00 per 1000

**DUPUY'S WHITE PERFECTION** (Dupuy G'heses). For pots, white Anemone type; very fine keeping quality; disbudded flowers 3 in. Blooms November 1st.

\$15.00 per 100, \$125.00 per 1000

## NEW VARIETIES FOR 1940

**Linda Lou**

**ESTER** (J. Dieckmann). A bronze single which lends itself for shading. Can be grown either in sprays or disbudded. A good producer and may replace Bronze Buckingham. One of the California varieties.

\$8.50 per 100, \$75.00 per 1000

**FAWN.** A bright golden yellow Single. Blooms December 5th. Flowers are 2 inches in diameter, with 5-6 rows of sturdy petals. This variety has a good wiry habit of growth, attains a medium height and fills the need for a good quality, late, yellow single.

\$2.50 per 10, \$15.00 per 100, \$125.00 per 1000

**GLEAM.** A large Anemone with a low, well-proportioned center. Color is a clear deep sulphur yellow which does not fade. Blooms about December 5th. Diameter of flower is about 5 in. when disbudded to 1 flower or about 3½ in. when 3 flowers are allowed to develop on a spray. This variety has outstandingly free growth, is very productive, and has exceptional keeping qualities. The flower has all the grace of the large single without the heavy appearance of so many Anemones.

\$2.50 per 10, \$15.00 per 100, \$125.00 per 1000

**IRENE HAYES** (Dupuy G'heses). White, Anemone type with flat cushion; disbudded, produces 4-5 in. flowers; matures November 15th.

\$15.00 per 100, \$125.00 per 1000

**LINDA LOU** (Baur Steinkamp). An Anemone of a fine shade of medium pink which blends well with other colors. Makes fine sprays on medium length stems and produces heavily. We recommend this variety for cutting November 8th and later.

\$5.00 per doz., \$7.50 per 25, \$12.50 per 50,  
\$20.00 per 100, \$150.00 per 1000

**LITTLE AMETHYST** (Dupuy G'heses). For pots, small Anemone type; beautiful shade of amethyst color; blooms November 15th.

\$15.00 per 100, \$125.00 per 1000

**MELODY.** A splendid, free-flowering single Korean quite distinct in its rugged branching habit and fine effect. Flowers are all of medium size, with three rays of petals and slightly cupped in form. It handles splendidly as a cut flower. Color is a lovely soft Daphne shade. In full flower late October. Height 3 ft.

\$2.50 per 10, \$15.00 per 100, \$125.00 per 1000

**MRS. CHARLES WYLIE** (Dupuy G'heses). Light bronze; Anemone type; mammoth blooms 6 in. in diameter; matures November 1st.

\$15.00 per 100, \$125.00 per 1000

## NEW VARIETIES FOR 1940

Natoma

**NATOMA.** An excellent, large-flowered Pompon which matures about October 25th. A good producer and sturdy grower with rigid stems and beautiful foliage. Possesses good form and excellent spray formation. Color: Brilliant tomato red with an attractive sheen typical to Korean Hybrids. An extremely attractive shade which makes it stand out above others. We recommend Natoma as an excellent addition which is certain to become popular as an excellent early Pompon with an attractive Fall color. A good variety for shading.

\$2.50 per 10, \$15.00 per 100, \$125.00 per 1000

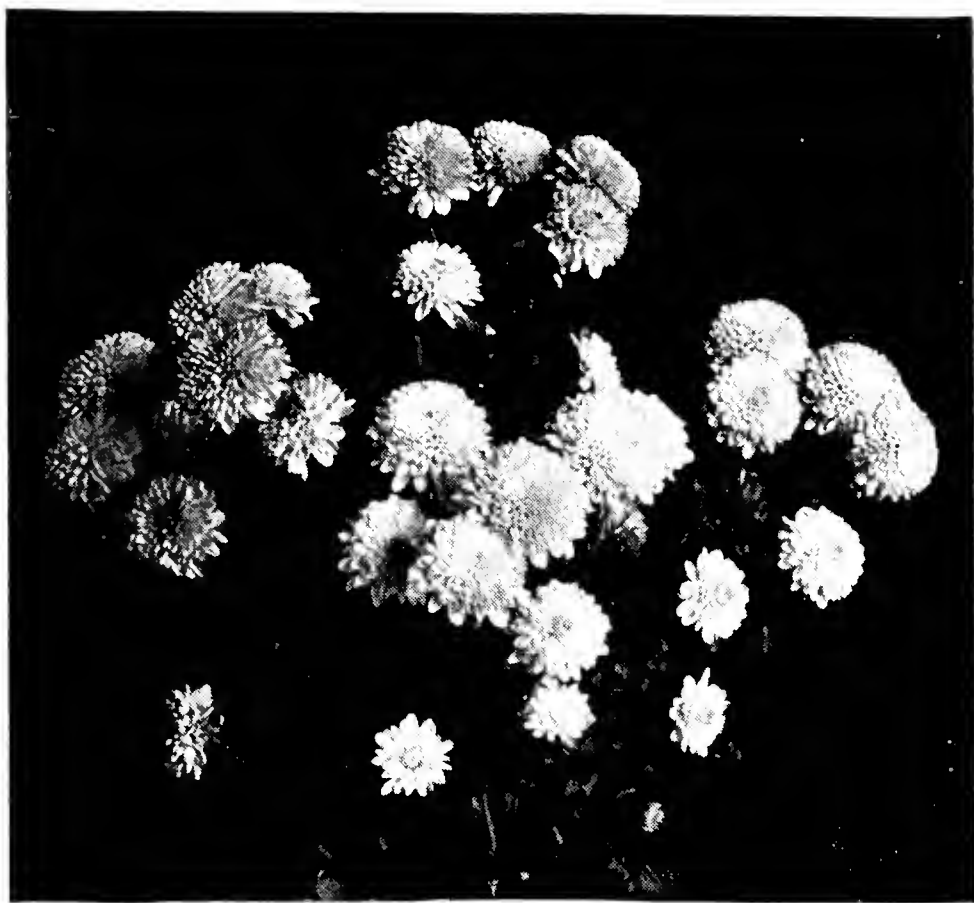

**PROSPERITY.** A late, deep pink Pompon which matures about the tenth of December. An excellent grower and heavy producer which will meet with favor with anyone who can use this color.

\$2.50 per 10, \$15.00 per 100, \$125.00 per 1000

Prosperity

## NEW VARIETIES FOR 1940

Rose Pearl

**ROSE PEARL** (Baur Steinkamp). In late October to follow the earliest varieties of Pompons you need some good heavy producers. Rose Pearl is a strong, bushy grower that will give you quantities of bright lavender sprays. Blooms run about 2 inches in diameter. Grows to good height and blooms October 25th.

\$5.00 per doz., \$7.50 per 25, \$12.50 per 50,  
\$20.00 per 100, \$150.00 per 1000

**SHASTA** (Baur Steinkamp). Belongs to the small-cushioned Anemone type. The blooms are 3 to 4 inches in diameter, pure white and have wonderful substance. The plant is strong, growing to 3 ft. and giving a heavy yield. We predict that Shasta will quickly become a leader in its class both for growing normally and for shading. Its blooming date is November 8th. Won C. S. A. Silver Medal at Cincinnati, November, 1937.

\$5.00 per doz., \$7.50 per 25, \$12.50 per 50,  
\$20.00 per 100, \$150.00 per 1000

Shasta

## NEW VARIETIES FOR 1940

**PEARL.** A large Pompon, clear opaque white, of unique, globular form. Blooms about November 20th, just after Chicago Pearl, which variety it resembles. A fast growing, strong, wiry stem; relatively small foliage; a good producer.

\$2.50 per 10, \$15.00 per 100, \$125.00 per 1000

**POMPONETTE.** A new and distinct type of Pompon, particularly suited to pot culture. Its habit is dwarf, compact and branching, forming a finished plant about 12-15 inches in height. Grown in coldframes without protection, it will flower naturally about September 20th—under glass in early October, so that its season can be timed readily. It requires little or no pinching. Blossoms are comparatively large, 2½ inches across and very double. Color is warm bronze in the bud or partially opened flower finishing a clear primrose yellow. It should prove an ideal subject for pot culture.

\$2.50 per 10, \$15.00 per 100, \$125.00 per 1000

**SILVER EMBLEM.** A white Anemone with creamy white cushion suitable for growing in sprays. An excellent grower with good stem and foliage, with average production. The originator does not claim this is an outstanding variety, but it is the best Daisy type Anemone to date. Very useful where pure white flowers are needed. Matures about November 1st.

\$2.50 per 10, \$15.00 per 100, \$125.00 per 1000

California Bronze Daisy

**SNOW.** A medium-sized, ivory white Pompon that blooms December 25th and later. Flowers are well spaced on a good, strong spray. Growth is very sturdy; plants attain medium height. This is a good quality Pompon to bloom with Garza Supreme.

\$2.50 per 10, \$15.00 per 100, \$125.00 per 1000

**SWAN.** A large white Anemone with a crystal clear white, informal type petal, of good substance, and a chartreuse green center which gradually changes with fuller development to a clear white. Blooms December 1-10. Flowers attain a diameter of about 4 in. when disbudded to 3 flowers per spray; can also be grown disbudded to 1 flower. A free grower with relatively small foliage. Takes water freely; ships unusually well and is a very good keeper.

\$2.50 per 10, \$15.00 per 100, \$125.00 per 1000

**VIKING.** A heavy-petaled bronze Single. Color is an intense, deep bronze on immature petals shading to a golden bronze as they mature. Very striking under artificial light. Blooms December 1st. Flowers attain a diameter of 2½ in. The 5-6 rows of petals are so arranged as to give depth and design to the flower. This variety makes a strong, vigorous growth and is a fair producer.

\$2.50 per 10, \$15.00 per 100, \$125.00 per 1000

**WHITE PEARL** (Baur Steinkamp). A pure white sport from Pink Pearl which we recommend very highly for blooming in late October. Same as the parent in every respect except color

\$5.00 per doz., \$7.50 per 25, \$12.50 per 50,  
\$20.00 per 100, \$150.00 per 1000

## NEW VARIETIES FOR 1940

California Kashima Daisy

**YELLOW PRINCETON.** A bright yellow sport from Princeton. Color is a clear yellow with none of the orange shading found in variety Princeton.

\$2.50 per 10, \$15.00 per 100, \$125.00 per 1000

The following five New California Mums of the Single or Daisy type. Cuttings will be shipped direct from California.

\$6.00 per 100, \$50.00 per 1000

**CALIFORNIA BRONZE DAISY.** Light bronze. Matures in California October 3rd.

**CALIFORNIA BUCKINGHAM, LIGHT BRONZE.** Light bronze. Matures in California October 10th.

**CALIFORNIA KASHIMA DAISY.** Red. Matures in California October 20th.

**CALIFORNIA NAGONA DAISY.** White. Matures in California October 20th.

**CALIFORNIA YELLOW DAISY.** Pure yellow. Matures in California October 3rd.

California Nagona Daisy

## LARGE FLOWERING MUMS

Albatross

# Large Flowering Mums

A letter before each variety indicates, for quick reference, the season of flowering—Early, Late, etc. The date after each variety is approximate date of flowering. Where possible, date of best bud is suggested.

E —Early. To get best flowers it is important to order early and plant early in May or June for best results. If buds are not formed on dates shown, reserve the first bud appearing after that date.

M —Midseason. When seasons are favorable, some of these will bloom a few days before November 1st.

L —Late. Late-flowering varieties usually have best blooms about November 10th, if early buds are taken and the season is favorable. These varieties may be had for later blooming by selecting the later buds and planting later.

T —Thanksgiving varieties usually flower shortly before Thanksgiving, but can be held, in most cases for Thanksgiving sales.

“C.S.A. Certificate” is the award of the “Chrysanthemum Society of America.”

# Anemone Types

This type consists of one or more rows of flat or tubular ray florets with shorter quilled disk florets. They may be grown either disbudded or in sprays according to which they are best adapted. This type of Mum is becoming more popular each year.

Pinch when small, allowing 4 to 6 growths to continue until buds are formed, then plants are disbudded to one flower to the growth.

PP—Indicates varieties which are also desirable for growing as Pot Plants.

See also group of Pot Plant varieties, page 24.

## Large Flowering Types FOR POT CULTURE

These varieties are adapted for pot culture. To keep plants dwarf, it is essential that they be pinched many times during the growing season until a few weeks before bud formation. It is not possible to give the exact date for pinching, but the flowering period should be the guide.

For additional list, see under Anemone, page 23.

	<i>Blooms</i>	100	1000
<b>Angelo.</b> Pink.....	Oct. 25	\$3.00	\$27.50

# Hardy Early-Flowering Mums

## FOR OUTDOOR GROWING

Commercial florists and the public are going in for these Hardy Pompons on a larger and increasing scale each year. We have listed a most complete collection of varieties to cover the entire outdoor blooming period until frost cuts down the blooms.

We have given approximate flowering dates as a guide for those who wish to group their plantings. Many varieties are desirable for rock gardens. Plants can be dug and replanted in window boxes, vases or other parts of the garden. Some varieties are desirable for culture under glass.

See separate list under **KOREAN HYBRIDS**, page 25, which are a new race of Hardy Outdoor Mums.

	<i>Blooms</i>	100	1000
<b>A. Barham.</b> Orange-bronze.....	Oct. 1	\$3.00	\$27.50

# Novelty—Odd Formed

## Feathery and Various Types of Chrysanthemums

These odd-formed Mums are feathery and threadlike varieties very much admired at the Flower Shows and Exhibitions. Take terminal bud on all varieties listed except Pride of Tokyo, best bud should be August 25. Flowering period covers month of November.

**Benten.** Bronze and deep red tips with green center.

**Japanese Maiden.** Yellow.

**Miss Gena Harwood.** Rosy mauve.

**Ohkwan.** Yellow.

**Patricia Grace.** Shell-pink.

**Peggy Ann Hoover.** Lavender

**Pride of Tokyo.** Creamy pink.

A novelty with odd tubular petals.

**Rayonnante.** Rose-pink.

**Sam Caswell.** Bright rose.

**The Dean.** White.

**Unique.** Rich wine red.

**Yellow Taggart.** Yellow quilled petals covered with hair.

**Yomei.** Golden tube petals with red spoon-end tips.

**All of the above: \$6.00 per 100; less than 100, \$2.00 per doz.**

## Japanese Mountain or Cascade Varieties

Small single varieties of fairly dwarf growth. These are free flowering with soft or pliable stems, which may be bent or shaped into various forms to be used for trellises or on tables by training. They may be tied in all shapes. The public was greatly impressed with these Cascade Mums at the Indianapolis Mum Show this season. Excellent for display in flower shops.

**Agappina.** Mahogany-yellow. Matures Nov. 10.

**Anna.** Pure white single. Matures Oct. 30.

**Brown Button.** A dark bronze color. Matures about Nov. 10. Blooms about 1 inch in diameter.

**Jane Harte.** Yellow, single. Matures October 30.

**All of the above: \$2.00 per doz., \$6.00 per 100**

## TO LENGTHEN MUM SEASON

The opposite to early shading MUMS is to delay the flowering period of some varieties by the use of electric lights. By using 40-watt bulbs for about three hours daily for certain periods of time, many of the fine Large-flowering varieties can be delayed three to four weeks later than their natural blooming period. We will be glad to suggest varieties, etc. in this connection.

# For the Convenience

For those who do not follow new varieties closely and would like a good selection of varieties that will give the best results, we have assembled this list to cover the full season.

*Listed in order of flowering from early to late*

# Shading Mums for

This is generally practiced now by many growers in a satisfactory way, covering with black cloth about 5 P.M. and removing same 7 A.M. Do not use a poor quality cloth that tears easily because it allows too much light to penetrate. A cloth termed a 2-foot candle or less is best suited.

For Pompons, continue shading until latest bud shows color and the majority of flowers are quite well developed. For Large-flowering Commercial Varieties, shading can be discontinued after all flowering buds have attained about 1/2-inch diameter.

**The following is a partial list. Ask us for a more complete list containing other valuable information**

Date of Second Pinch.....	June 18
Date of Third Pinch.....	July 15
Date of Starting to Shade.....	July 15

# New Carnations, R. C. for 1940

Ready December and Later

**WHITE MAYTIME.** A pure white sport of Maytime.

\$15.00 per 100, \$125.00 per 1000

**WHITE PETER FISHER.** A sport having all the characteristics of Peter Fisher; productive, good stems, medium-sized blooms. Will give plenty of Cuttings.

\$12.50 per 100, \$100.00 per 1000

**SETH PARKER** (*Patented*). A large, bright maroon-flowered variety that becomes brighter in artificial light. It is a healthy growing variety and flowers very freely.

\$3.00 per doz., \$20.00 per 100, \$150.00 per 1000

**HERMOSA.** This variety has won much favor wherever it has been exhibited. The lively shade of light pink has caught the eyes of both the designers and buying public.

\$15.00 per 100, \$125.00 per 1000

**ROSE RUTH.** A sport of Mina Brenner. A brilliant dark pink. Medium-sized flower, a stiff straight stem, a good keeper, a free and steady bloomer with no heavy foliage. Practically no splits.

\$10.00 per 100, \$90.00 per 1000

**BERKSHIRE HILLS.** A beautiful salmon pink sport of Patrician which is destined to become the leader in its color class. The flower has the same form and size as Patrician. The color is a light salmon pink. The variety does not split as much as the Patrician. The flowers are splendid keepers. The plants are remarkable growers. They are vigorous, clean, large and bushy. The stems are long and strong. Production is high.

\$15.00 per 100, \$125.00 per 1000

**JOYCE.** Dark red. One of the English varieties. A seedling.

\$20.00 per 100, \$150.00 per 1000

**CANDYTSTICK.** A variegated Ward.

\$10.00 per 100, \$85.00 per 1000

**LULU.** Orchid lavender. Good stem and color. Commercial size and good keeper.

\$25.00 per 100, \$200.00 per 1000

**WORLD'S FAIR.** Unusually attractive color. Red diffused with white markings.

\$25.00 per 100, \$200.00 per 1000

**DARK PINK VIRGINIA.** A medium pink sport of Virginia.

\$12.50 per 100, \$100.00 per 1000

**SNOW WHITE.** One of the finest white Carnations ever introduced. Stems are strong and the foliage is broad. It is an easy variety to propagate. There is no grassy growth and no trace whatever of disease in the variety.

\$15.00 per 100, \$125.00 per 1000

**EDDIE G.** A deep pink. Very good producer, of bread and butter type, good stem, full flower, no splits.

\$12.50 per 100, \$100.00 per 1000

**SUN TAN.** Light tan background pencilled with pink. Good producer, long stem, no splits.

\$12.50 per 100, \$100.00 per 1000

**PHARAOH.** Introduced last season, but we could not begin to meet the tremendous demand for it. This is the most beautiful novelty Carnation available. The petals are a delicate shade of orange, and each petal is tipped with bright red. There are no pencilings. The blooms measure over 4 inches in diameter, the petals are fringed and the flowers are full. It is a heavy producer. It is an exceptionally fine keeper.

\$15.00 per 100, \$125.00 per 1000

**GARDENIA.** Pure glistening white, 4 inches in size. Well formed and very full. Broad, smooth petals. Very fragrant, long and straight stems.

\$12.50 per 100

---

**There will probably be other New Varieties. Consult us about them. Of course, we have all of the Good Standard Varieties. Ask for list**

---

# GENERAL INFORMATION

---

**PRICES**—Prices are for rooted cuttings, which we believe to be more satisfactory than potted plants. Prices are subject to change without notice, also subject to crop failure. No orders for less than 25 of one variety of the standard kinds can be accepted.

**ORDER EARLY**—It is to your advantage to let us know as early as possible what you will want. Help us to help you by ordering early.

**OUR SERVICE**—We want to supply you the best varieties suitable for your business. Consult us. We will give you expert advice so far as we can. The information in this list regarding the date of taking bud, height of bloom and flowering dates and descriptions will be helpful to you. **Save this list for reference.**

**OUR RESPONSIBILITY**—We accept orders contingent upon our ability to have produced for us sufficient stock to meet the demands. All orders are filled in strict rotation. Orders will be filled as near the date desired by customers as it is possible to do so, bearing in mind that weather conditions and many other elements sometimes delay the growth of stock beyond human control. All orders are booked subject to crop shortages and crop failures. We agree to supply good stock, well rooted, packed in the proper manner and delivered to the express company or post office (whichever customer designates), after which the plants travel at buyer's risk.

**CLAIMS FOR DAMAGE**—All claims for damage must be made against the carrier by the buyer. We have no control over transportation agencies, and cannot be responsible for stock frozen, heated or injured by delays or rough handling. According to law, the transportation companies are the agents of the buyer and our responsibility ceases when we deliver stock in good condition to such agencies.

**NON-WARRANTY**—We do not warrant in any way, expressed or implied, the contents or the description, purity, productiveness or any other matter of any seeds, bulbs or plants sold by us, and we will not be in any way responsible for the crop. If the purchaser does not accept these goods on above terms, no sale is made thereof, and he must return them at once and money will be refunded. Subject to the above conditions, we make this sale at the moderate prices at which we sell our goods. All claims must be made in writing within five days after the receipt of goods.
